

# Informit Explore

Empowering all learners, Informit Explore is the first major research database tailored specifically for Australian schools and public libraries.

Developed in partnership with the Australian Council for Educational Research (ACER) and aligned with the Australian curriculum, Explore provides access to a diverse range of Australian publications and original sources, kick-starting research and sparking critical thinking on the key issues shaping Australia today.

Informit Explore's user-friendly interface is home to over a million trusted text and video sources all in one place, including the largest collection of Aboriginal and Torres Strait Islander publications.

With the option to add on [TVNews](#), a comprehensive streaming database of Australian television news, current affairs programs from free-to-air networks, this addition empowers students to learn independently through television news content.

## Subject areas include

- Indigenous Studies
- Literature
- The Arts
- Business & Economics
- Politics
- Psychology & Mental Health
- Society
- Sustainability & Environment
